

Simplicity: Less is more!

Among the features of the MiNiSTUDIO series, the user interface is the biggest difference when compared with audio interfaces designed for music creation. We set about designing these units especially for personal broadcasting, carefully choosing the controls so that even people who are not familiar with audio equipment can use them with ease and concentrate on their performance while broadcasting live.

Sound, sound, sound

With the professional sound of a MiNiSTUDIO you can gain new audiences for your reports, documentaries and podcasts or you can impress further your opponents in your favourite online game.

Headset not included

MiNiSTUDIO Creator

TASCAM

AUDIO STREAMING AS IF FROM A BROADCAST STUDIO

- ▶ The professional model with connections for two microphones or electric guitars
- ▶ Use a headset with microphone or headphones and separate microphones
- ▶ Connect an MP3 player or your mobile phone for background music or mix the sound from your computer to your programme
- ▶ Illuminated ON AIR button
- ▶ Three velocity-sensitive trigger pads to launch jingles and other effect sounds
- ▶ Reverb effect, several voice effects, EQ, compressor
- ▶ Four presets for different uses (broadcast, music creation, Karaoke, speech)

US-42 MiNiSTUDIO Creator

If you want maximum control, you can make detailed settings on the Expert page of the settings panel

Use the velocity-sensitive trigger pads to fire your own effect sounds live. Alienate your voice with the chopper or other special effects such as female/male voice, etc.

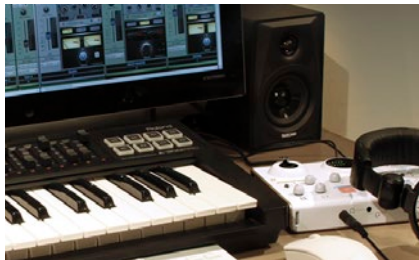

US-32 MiNiSTUDIO Personal

- ▶ The easy-to-use model for the beginner
- ▶ Use the built-in microphone or plug in your own mic
- ▶ Trigger pads, effects, etc. as on the MiNiSTUDIO Creator
- ▶ Three presets (broadcast, karaoke, speech) and own settings

Your very personal broadcast

With a **MiNiSTUDIO Personal** or **MiNiSTUDIO Creator** from Tascam you can present yourself or your own music live on the Internet in a simple way – just like broadcasting from a real studio in perfect sound quality! In combination with a webcam, you can create podcasts or your own live programmes.

Show the world how proficient you are with your online game. Or let everybody listen when you are singing karaoke or introducing your latest self-composed song. If you transmit only speech, the **MiNiSTUDIO Personal** is just right for you. The **MiNiSTUDIO Creator**, on the other hand, offers more possibilities with two separate inputs which are also suitable for instruments.
